To Whom It May Concern,

My name is Jeff Hofer and I am the Site Manager for Genesis Inc.'s St. Andrew's Genetic Nucleus located in Manitoba, Canada. We have had the Gestal electronic sow feeding system installed throughout the farrowing barn of our facility for over 2 years now. We have seen very positive results in the feed intake, feed efficiency and milking ability of our sows over this period of time. As one of the primary genetic nucleus barns for Genesis, performance is extremely important to us and we have seen no negative effect on piglet quality or pre-wean mortality. I would recommend this product to anyone looking at installing it in their system.

Yours truly,

Jeff Hofer
